## Customer Reviews

I got this adult coloring book for a sister who has visited and is well informed bout Egypt. The designs are nice, but the faces are immature like faces in a chlds coloring book. For example, the Spin has a sweet, smiley face.

I've always been interested in Egyptian history, this book is great

Â I have been looking for a coloring book with Egyptian style hieroglyphic designs and was really pleased to find this one. This coloring book has 25 different designs (the referenced 50 comes from getting two of each of the designs.) The designs really evoke the look and feel of ancient artwork to me. While they are not perfect replicas of known work, they have many of the iconic images I am looking for. The designs are very detailed with but not what I consider intricate. There are many areas to color but I can use most coloring medium without any issues. I think crayons might be more difficult unless you can sharpen them to a fairly fine point. While you can have access to .PDFs when you purchase this book, my review is based on the book as it is received from . That way you will know what the pages look like and how they accept color. I like that the publisher provides the digital version as well so you can choose the paper you wish to use and/or to color the pictures as many times as you choose. This is what I found while coloring in this book and testing the paper with my coloring medium: 25 x 2 Designs based on Egyptian Hieroglyphs with stylized poses. Paper is typical of CreateSpace: white, thin, slightly rough and non-perforated. The back of the page is printed black which is something I am find typical of Jade Summer coloring books. The designs do not merge into the binding. There is a heavy framing line at the outer edges of the design to give the project a more finished look, especially for framing. There is a slight shadowing effect to the framing line which gives the image an almost 3D effect. Glue Binding (there is room to cut the pages out if you choose to do so.) Though you cannot see the bleed-through easily due to the back of the page being printed in black, I recommend the use of a blotter page when working in this book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below. Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layers the same color for deeper pigment or multiple colors and I could blend easily using a blending stick. I tested both oil and wax based pencils. I also found that hard lead pencils leave dents through the paper.

If you are interested in ancient Egypt this is a beautiful collection of drawings! Many of the drawings have small details which I love to make it a challenge and a few are less detailed. Completed, these are going to be truly a work of art definitely suitable for framing. I prefer to print from the PDF onto a

card stock that I have found to be perfect for coloring with my gel pens. A Neenah Exact Index Card Stock, 8.5 x 11 Inch, 90 lb, White, 250 Sheets (40311) A My HP Inkjet printer runs smoothly with it every time. Lovely collection!

I am very happy with my purchase. Very good quality of pictures - clear outlines of beautifully done pictures. Paper quality is as expected for this price range coloring books - great for pencils. I like watercolor and the paper is quite adequate for watercolor paints too. It is not watercolor paper, those books are at least twice as expensive as this one. I really enjoy working with this book. Looked up what pigments they had in Ancient Egypt and mix similar shade paints to make my pictures look authentic. Getting a PDF file of the book is very helpful for future copies on watercolor paper. Will definitely buy more coloring books by Jade Summer. Just added the first page colored in watercolor paint. The paint worked pretty well on this paper.

I was really pleased with this book. The individual pages are one sided with the backside black. Very clever. There are two of each individual image so if you feel like you want to do an image differently you can. I really like that you can download a .pdf version of the images in the book. I haven't tried accessing them yet, but will definitely try tonight. I think one of the best parts is that the book isn't too busy. Yes, there is a lot of detail. But no so much that you can't actually color in the details because they are tiny or overwhelming. I personally don't like "busy" coloring books. Each page has a clear focal. I like that.

~I was looking for something new to color and saw this. It is perfect! So many cool, unique Egyptian pictures. You can go so many different ways with colors. Real or fantasy, The drawings are magnificent. I like the PDF version, this way you can start over if you make a mistake or want to try other colors. I am going through my love affair with prismacolor pencils phase. Very easy to shade these pictures. Once again Jade Summer has come through with something new and fantastic. Very highly recommended.

There's a lot of good things about this book. First, there's two sets of the drawings. Second, the drawings are only on side of the page and the back of each page is black, both things helping to prevent bleed-through. Another good thing is the artwork which looks really nice. Further the drawings are not overly complicated, making coloring them fairly easy.
