Customer Reviews

It's taken me quite some time to review although I read the second story some months ago. I thought maybe time would help me come up with adequate words to describe how I felt but it seems even after all this time I'm still as awestruck as I was when I first read it. I've been lucky enough to have the privilege of being able to read some of the authors unpublished work previously so I knew once she started the very first book that it would be nothing short of wonderful but as she's come to prove to me it wasn't wonderful it was spell bindingly freaking amazingly out of this world fantastic.

She goes above and beyond in her story telling. This is a tale so amazing, so vivid, so full of powerful emotion that I truly was spellbound. I was hooked from the very beginning to the end. The perfect mixture of angst, mystery, love and intrigue. I truly appreciated the fact that this story told a beautiful love story between two women. It IMO was a vocal point of the story - that two women - in a time when it was maybe unheard of found love against all odds, I appreciated the raw honesty and realistic story telling of love between two people. I felt every bit of emotion they felt, When they cried so did I, when they hurt - I did too - when they were happy - I was overjoyed. I love reading but I'm very selective about what I read and fantasy isn't something I like but I was a prisoner to this book. I truly felt like I was on this magical journey with Arizira and Talliea - never in all my life has such a love story captured me as this. Never have I ever been so captivated, so engrossed, so attached to two characters. Words cannot do this story justice. It truly is an amazing piece of art and the author has my utmost respect and praise - I doubt I'll ever read another story that will take me on a journey like this did. Amazing, spellbinding, magnificent, fabulous - Once you pick it up you'll be transported into a world that you'll have no choice but be a part of and you'll never want to leave. Congratulations on such a beautiful beautiful story. Funky!

This story was awe inspiring. If this is the author's first work, I cannot wait to read her future endeavors. I am a voracious reader and have read hundreds of books written by many authors -- so, when I read a book that leaves lingering images on my mind of the characters, I know that I need to provide this author with a review and thank her for giving me the added spice to my passion for reading. It is an amazing Saga about love, devotion and destiny. I find the author's words incredible. I had to look up the definition for many of the words used in the story -- that was fascinating to me because one of my passions is reading and when I learn something new in the process it's just icing on the cake! Wow! For an author to create such a complex story with made up languages, cultures and people is beyond incredible. I am very glad I decided to read this Saga and look forward to being on the lookout for this author's future work.

This is the second of 2 books in the saga of Arisira and Tahli. Both books combine to tell one very interesting story of the power (literally) that the love between the two protagonists brings when 2 different tribes (races) believe the other to be a hated myth. I enjoyed the books immensely and it was well worth the time to read it. My use of four stars instead of five is because I feel that the author was in need of a good editor to advise her to reduce her words by about 25%. There were some typos but I could look past them. I think that, like any good movie, there were scenes which could

have been left on the cutting room floor. I found myself skipping whole pages because I didn't feel that there was a need to replay or reveal everything that someone was feeling. Some trust in the reader to understand what is meant is important. All this being said - do read this book . The author deserves it and shows much promise for future books. I look forward to reading her next work.

This book had some of the best-developed characters and culture I had read in quite some time. The land they lived in and the rules they lived by were believable and consistent. The development of the personality in the characters made you feel like you really knew them as people, and therefore I was much more invested in their stories, most particularly the main characters. The other characters lacked a bit of development, but that might only be natural in a book where so much time is spent developing the main characters, their relationships with each other and their relationships with those around them. I fell in love with the story quickly and read both books of the Saga straight through in a couple days because they were so good.

Worth every cents :) i wrote a review about the first book and gave it a 4 stars due to several inadequate qualities, but this book was free from those :D thanks you for written such an amazing series. Everything felt so connected, similar to how puzzle pieces that fit to one another, this book is exactly the same, once again there were no contradiction, the author didn't left a single event unanswered and i love how realistic this book is, fantasy yes but it reflect humans' natures itself. Arnira represent the green lush of earth and Esuval represent the destruction humans caused for earth, it's a fantastic indirect comparison.

I have waited anxiously for this second book, and it does NOT disappoint!!! This wonderful story and world should be an EPIC movie!!! I saw, felt, and lived these books while reading them! I cannot even begin to give Ms. Orr enough praise for this wonderful saga! If you like to really experience the story you are reading, these 2 books are the books for you! Thank you so very much, Ms. Orr, for sharing your wonderful, legendary talent with us!!!

I fell in love with this book. The story is really good. I must have taken quite some time to imagine that kind of world!! There are some wrong spelling or syntax, but, it is easy for me to overlook them, as my first language is not English! I loved the characters, the atmosphere... everything!! Looking forward to the sequel!
