Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the

sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

Good little laminated brochure type guide. Not comprehensive by any means, but clear pictures and accurate descriptions help me and my kids identify the common birds we see in our yard, and when we are out and about.

Great description of product. Exactly what I wanted. Fast service

All of the above are very useful with that one exception. MWS

Great pocket guide. Item came quickly. Good purchase.

We are not bird experts, but do have a "beginners" interest in bird identification. We are new to Louisiana, and my 3-year-old son and I love finding the birds we've seen at the park in this little guide.

GREAT and very helpful "carry along" quick reference.

This is nothing but a very abbreviated fold out pamphlet which is of no practical use. Just some tiny pictures with the the names of the birds, no helpful hints about identification. this is a waste of \$\$.

The second book we bought, all about Louisiana birds WAS helpful.
