

Caribbean Primary Agriculture - Workbook For Infants (Bk.1)

Synopsis

This Series has been specially written to meet the new and growing interest in agricultural science that is being shown in Caribbean primary schools. There are four Textbooks, five Workbooks and a Teachers' Book, which follow closely the Trinidad approved syllabus. The books are all fully illustrated and lively colour drawings are used throughout the Textbooks to stimulate interest and aid comprehension. The Scientific Discovery Approach is used, so that students can find solutions to problems both by their own investigations and with guidance from the teacher.
