Crystal Prescriptions: The A-Z Guide To Over 1,200 Symptoms And Their Healing Crystals

Synopsis

Listing over 1,200 symptoms, this is a practical first-aid guide based on sound crystal-healing principles that have been practiced for millennia. Crystals are a gentle, non-invasive system of holistic healing with no side effects. Suitable for children and animals, they can also benefit your environment and your home.

Customer Reviews

An internationally known author, astrologer, psychic, healer and workshop leader, Judy has been a karmic counsellor for over thirty years. Her books have been translated into fifteen languages. Her most recent is *Torn Clouds* (O Books).

It's ok. I'm new to crystal healing and I had to actually do more research to find more about the stones. It was a good starting point but definitely not the final destination.

The book I received looks like a re-print. The cover is blurry, I am not sure if it is a reprint or because it was one of her first books the quality is just crappy. I will most likely return since I already own several volumes. Also, It seems as if there is only 50 pages of information followed by a crystal glossary that appears in every book in this series and has the same information

No other crystal book like it.....when you want to search by symptom rather than stone this is your go to book!

Great book .talks about using crystals for certain health issues.I would read all over again

Quick easy study. Very good to have on hand. Very good suggestions that can be tailored or expanded upon for each client. Excellent learning to differentiate between exterior and internal afflictions.

It's a good book, but it feels incomplete to me. Lots of details for beginners about how to clean your crystals and the chakras, but (in the Kindle Fire version) no alphabetical listing of the crystals mentioned in the book and no photos of the crystals - that would have made it a '5 star' book for me. But still, a nice 'quick reference' for an issue. Ms Hall and Philip Permutt (The Crystal Healer) should put their heads together and they'd probably write the perfect book!

Details explanation of crystals and related symptoms/dis -ease. The text has an easy to follow reference format. This book should be a part of every home library.

Love it,
